Kungsörs kommun

In the autumn of 2026, we will carry out fee checks for pre-school (*förskola*) and after-school services (*fritidshem*). If you have paid too much or too little, an adjustment will be made.

The fee checks involve comparing the information a household has provided to the municipality with the income of the members of that household as assessed by the Tax Agency.

This will affect you only if there is a mismatch

The vast majority of people pay the correct fee and will not be affected by these fee checks. However, if it turns out that the income you have reported is higher or lower than your actual income, an adjustment will be made. Then you will receive a separate invoice.

No action will be taken for amounts below SEK 50 per month (SEK 600 per year)

Amounts below SEK 600 will not be invoiced or reimbursed. Fee checks are carried out with a two-year delay, because it takes that long for Tax Agency data to become available. This means that the checks carried out in 2026 will relate to the fees paid in 2024.

Please contact us for more information

Legal guardians who have questions about the fee checks are welcome to contact the Children and Education Administration (*Barn- och utbildningsförvaltningen*) of the Municipality of Kungsör:
